Building Your Repertoire of Teaching Strategies

GRADES K–12

In today’s diverse classrooms, the educators’ ability to reach all of their students requires a full repertoire of teaching strategies. In this course, education professionals explore several dynamic strategies that build on their existing teaching skills. They examine four models of effective instruction, each supported by strategies that combine theory with practical teaching practices. Educators learn how to design and implement a variety of lessons that promote the potential of all learners in their classroom.

This course is designed for K–12 classroom teachers, lead teachers, curriculum coordinators, special education teachers, reading specialists, and subject teachers.

COURSE TOPICS

- Introduction to effective teaching strategies
- The mastery model
- The new American lecture strategy
- The graduated difficulty strategy
- The understanding model
- The concept attainment strategy
- The mystery strategy
- The self-expressive model
- The inductive learning strategy
- The metaphor strategy
- The interpersonal model
- The peer practice/reciprocal learning strategy
- The jigsaw strategy
- Four-style strategies and others to expand your repertoire

COURSE OUTCOMES

By the end of the course, educators will:

- Describe principles of thought and their impact on teaching and learning in the classroom.
- Explain the relationship between instruction strategies and the models of effective instruction.
- Analyze the effective elements and plan a lesson using each of these strategies: new American lecture, graduated difficulty, concept attainment, mystery, inductive learning, metaphor, reciprocal learning, and jigsaw.
METHODS OF ASSESSMENT

This course provides numerous opportunities to apply research-based concepts and theory to practical teaching situations. Assessment is conducted in the following ways:

- **Activities** are short assessments that help educators explore concepts and make connections between the content and their teaching practice. Some activities are ungraded but serve to prepare educators for other graded assignments. Any ungraded activities are clearly marked as such.
- **Study Team Discussions (print & DVD) or Dialogue Summaries (online)** allow educators to share ideas about the course content with other teachers, then ask them to analyze and summarize the discussion and then describe how their understanding of the topic has been enhanced or expanded.
- **Applications** assist educators in applying the theories, concepts, and strategies to their teaching practice.
- **Quizzes** provide educators with instant feedback (online only) on their understanding of the course material. There are three quizzes, each reviewing several sections of content.
- The **Final Reflection** requires educators to synthesize the content and reflect on their key learnings throughout the course.

COURSE MATERIALS AND FORMAT

Course texts, websites, and journal articles help facilitate learning and transfer theory into practice. Video programs feature interviews with nationally recognized education experts. Classroom scenes provide a view into the classrooms of master teachers who demonstrate the strategies taught in the course. This course is offered in two distance-learning formats: print & DVD and online. Educators select one format when they enroll.

PRINT & DVD FORMAT

Educators in the print & DVD version of the course receive printed materials to facilitate their learning. This version of the course requires educators to form a study team. The educator must have at least one study partner or peer coach, preferably another educator, to complete activities, engage in discussion, and seek feedback. It is not necessary that the study partner be enrolled in the course. Educators enrolled in the print & DVD version should have Internet access in order to connect with the many websites that are offered as learning resources. Assignments are submitted via email. The print & DVD course includes:

- The print study guide:
  - *Building Your Repertoire of Teaching Strategies*
- The DVD:
- The course textbook(s):
- The other required readings

ONLINE FORMAT

Educators in the online version of the course access the course content via an online classroom. Educators are required to participate in virtual discussions with fellow educators via a discussion board. The course textbook is shipped to educators, but the video programs and other resources are available within the online classroom. Assignments are submitted through the online classroom. The online course includes:

- Access to the online classroom for:
  - Building Your Repertoire of Teaching Strategies
- Access to the video programs in the online classroom as well as a backup DVD:
- The course textbook(s):
- Access to the other required readings
