Reading for Understanding:

A Research-Based Approach to Improve Reading Skills

Grades 6–12

Graduate Credit: 1 semester hour

Based on Ruth Schoenbach’s best-selling book *Reading for Understanding*, this course contains strategies for helping students in middle and high school gain the reading independence to master subject area literacies required of the Common Core Standards. The book presents concrete tools for use in a range of classrooms, including examples of strategies for English language learners, students with special needs, as well as those in honors and AP courses. *Reading for Understanding* proves it’s never too late for teachers and students to work together to boost literacy, engagement, and achievement.

In this course, educators critically reflect and analyze the book’s content with the goal of selecting specific practices to apply in their classrooms.

Recommended for teachers of Grades 6–12.

Method of Assessment

This online, self-paced course is based on the book you selected. The course provides the opportunity to study several educational concepts and apply them to practical teaching situations. You will read the book in its entirety. Assessment is conducted by completing all sections of an Assignment Organizer, which is a 5- to 7-page reflective paper demonstrating that educators have met the outcomes of the course.
